PERSONAL PROJECTS

Genius - AI SaaS Platform ⬀
- AI SaaS Platform with five AI tools. Powered by the Next.js 13 App Router, platform will not only be efficient but also user-centric

AI-Powered-3D-Tshirt-Designing -Website ⬀
- Developed a 3D T-Shirt Design Website using Three.js and React 3 Fiber for personalized t-shirt customization. Real-time color, logo, and AI-generated texture features. Strong focus on user experience, responsive design,.

Decentragram ⬀
- This is a decentralised version of Instagram that was created with the help of the web3.js package and solidity. It has some unique features like tipping for posts and posting to the blockchain.

Decentralize File System ⬀
- In the decentralised file system, which we are utilising Pinata IPFS for, anyone can save the image, and a smart contract will preserve the image's URL and you can access or share it from a website.
